

Pricing Policy

You may use the EZ Sport Scheduler system to define your events, and build all the schedules you want, free of charge. This includes using all the features including building single and double elimination tournaments, scores updating, and bracket advancement.

The advertised price entitles you to make the schedule generally available to your constituents. This includes both the online application processing, and the ability to view schedules, scores, and standings.

The schedule and its features will be available for a period of 8 months from time of payment. This allows a 2 month window to accept online registrations before the registration deadline, and 6 months to conduct regular season pool play and finishing tournament(s).

After the initial 8 month active period, the schedule will revert to a read only "history" status for a period of 4 months (until 1 year from the original payment date).

After one year, the schedule will be changed to an "expired" status, and will no longer be accessible to the public. As an administrator, you will still have access to it until it is deleted from the system which will be 1 year and 3 months from the original purchase date.

Historical access to the schedule by the general public may be preserved by paying a small annual "schedule renewal" fee.

Warranty / Guarantee

No warranty or guarantee is expressed or implied. We will do our best to keep your schedule available as much as possible. We will do our best to correct any problems or deficiencies brought to our attention. If you are not satisfied with our service, we will refund your money back, prorated based on the length of time the schedule has been in active service relative to the 8 month window described above.
